## WHY CAMPING ?

- Anyone you ask has a different reason for camping. Some like to disconnect from technology and reconnect with nature. Some families go camping to revitalize their relationships, away from all the distractions at home. Many youth organizations teach young people how to build a fire, pitch a tent, or read a compass. Camping means different things to different people. (NPS, 2019)
- Hence, we developed this to have users interface using the US map to locate camping sites.

## National Park Service Information

National parks are the best idea we ever had. Absolutely American, absolutely democratic, they reflect us at our best rather than our worst." You'll find photos and essential information about NPS sites including visitor centers, campgrounds, events, news, alerts, and more, as well as detailed articles about NPS natural and cultural features and important people and places.
